

## SEPTEMBER 2007 UPDATING

Thanks to your help 1.866 sterilizations and 1.899 vaccinations have been carried out at the Ortovet clinic of Bucharest (updated data on September 24).

After the last call, we heartily thank all the people who generously sent medicines and veterinary material as we requested. An extraordinary contribution was given by Mrs. Paola of Turin who gave us the microscope.

We report some among the most significant cases treated by M.D. Liviu Gaita; these are very serious emergencies in large part caused by road accidents:

The first run-over dog was found at the edge of a road and was taken to the clinic; the second had a broken back spine but, after a successfully performed surgery, this dog can walk again.

This puppy was found abandoned and devastated by a serious dermatitis that is currently getting better after weeks of treatments.

Attacked by a dog, this little puppy was in desperate conditions; after an operation lasted 4 hours you can see it miraculously on its feet.

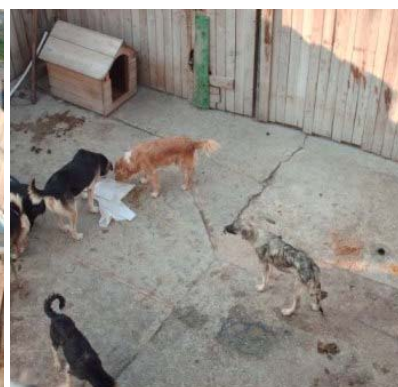

Also Molly arrived to the clinic in a very serious condition and now she is rather well; we are taking steps for her adoption hoping that she can soon find a family to make her welcome.

### **EMERGENCY FOR 600 DOGS**

*We received a desperate call from the Leyla Shelter of Bucharest.*

*The owner, deceased last month, leaves these 600 souls that will have to be promptly transferred as the ground were they are is on sale. Waiting for further explanations, we sent a donation to stop the food emergency. M.D Liviu Gaita is taking care of the sterilizations.*

**IMPORTANT:** *considering the remarkable number of dogs that need our help, this year we had to abandon the calendar. The funds will be used to support the sterilization program in collaboration with the Ortovet clinic as well as the support that is our intention to guarantee to Leyla shelter, according to our financial assets.*
